PROFESSIONAL SUMMARY

Senior AI Solution Engineer with 4+ years building production AI automation and agentic platforms powered by LLMs, RAG pipelines, multi-agent systems, and the Model Context Protocol (MCP). Owns enterprise AI solutions end to end - 25+ deployments integrating LLMs with governed enterprise systems, cutting manual effort by up to 80%.

WORK EXPERIENCE

Krista Software (AI Automation Startup) - Pune, India

Senior AI Solution Engineer | Aug 2022 - Present

- Architected 25+ enterprise AI automation solutions integrating LLMs with third-party systems (Jira, Slack, Salesforce, Zoho, Datadog), reducing manual workflows by up to 80%.
- Lead engineer on two flagship platform initiatives - a governed MCP server and AIQA, Krista's production RAG platform - owning architecture, security and production support for both.
- End-to-end solution ownership** in a startup environment - requirements, architecture, integration, demos, optimization and production support - across enterprise customer engagements, from first scoping call to live production.
- Mentor 4 engineers across AI solution delivery.

KEY AI PROJECTS

Enterprise MCP Server & AI Channel Platform - Krista Platform

- Architected a production MCP server over the MCP JSON-RPC 2.0 protocol, letting AI clients (Claude Desktop, ChatGPT, Cursor) securely call governed enterprise tools instead of just answering questions about them.
- Connected the AI agent to everyday messaging apps - Microsoft Teams, with Slack and WhatsApp support built in - so employees use it from the tools they already work in.

Enterprise RAG Platform (AIQA)

- Core engineer on Krista's production RAG platform: 50+ format ingestion readers, chunking/embedding pipelines, and hybrid lexical + vector retrieval feeding citation-grounded, multi-turn answers (Claude, OpenAI, Gemini) across a large, continuously growing enterprise document corpus.

AI Risk & Compliance Sync Engine

- Automated control-to-process mapping between an enterprise GRC platform and a process-modeling system, eliminating 20+ hrs/week of manual reconciliation for the compliance team.

SKILLS

AI / LLM & Agentic Systems LLMs, Generative AI, Agentic AI, Agentic RAG, Model Context Protocol (MCP), Tool Calling, Function Calling, Prompt Engineering, Multi-Agent Systems, AI Orchestration

GenAI Frameworks & Serving LangChain, LangGraph, CrewAI, Hugging Face, FastAPI, vLLM, Ollama, AWS Bedrock

Retrieval & Vector Stores Qdrant, Pinecone, ChromaDB, OpenSearch, Embeddings, Hybrid Search, Semantic Search, RRF, Re-ranking

Fine-tuning & Evaluation LoRA / QLoRA, SFT, Alignment (PPO, DPO), Quantization (GGUF), RAGAS, DeepEval, Recall@k / MRR

LLMOps, Cloud & DevOps Guardrails, LLM Observability, LLM Tracing (Opik), Prefect, Grafana / Prometheus, Datadog, AWS (S3, SQS), Docker, Kubernetes / Helm, CI/CD

Languages & Backend Java (Core, 21), Python, SQL, JAX-RS / Jersey, PostgreSQL

APIs, Protocols & Integrations Anthropic Claude API, OpenAI Agents SDK, JSON-RPC 2.0, OAuth 2.0, Microsoft Graph & Teams, Jira, Slack, Salesforce

EDUCATION

B.Tech, Computer Science & Engineering - MIT Academy of Engineering (MITAOE), Pune | Jul 2018 - Jul 2022 | CGPA 8.50/10.00

AWARDS

Shining Star of Krista Award (2x) - Outstanding customer delivery, AI innovation, and cross-functional impact.
